27.

Select Connectivity Type - Ethernet

Network Setup Manager

Select how you would like to connect the Equipment to the Internet.

Ethernet
More Reliable - Physically wired connection, easier setup

Wi-Fi
More Versatile - Wireless connectivity, more complex setup

Cellular
More Independent - Utilizes mobile network connectivity

28.

Select Ethernet Connection Type (Choose Dynamic if Unsure)

What IP Address Assignment are you trying to make?

Dynamic
Basic - Flexible configuration that connects automatically with minimal setup

Static
Advanced - Complex network configuration that requires special instruction from the venue's IT department

TIP - If you are unsure, select Dynamic

29.

Ensure Successful Connection. Close this tab & Return to First Setup tab.

Dynamic Ethernet Connection

Be sure to review the information below before proceeding to the next step in the setup process

Ethernet Setup

1. Route the ethernet cable from the venue's network equipment
2. Ensure the ethernet cable is plugged into the venue's network equipment
3. Plug the ethernet cable into the port on the left-hand side of the device, near the power plug
4. Verify that proper cable management Best Practices have been adhered to
5. Click Check Device Connectivity to continue setup

32.

Confirm Device is assigned to correct cooler – Select Next

The screenshot shows a mobile app interface titled "Activate System". Under the heading "Configure Coolers", there is a note: "Each device assigned in the previous step must be connected to the Internet. Select a Cooler to check the connection status or begin setting up each device." Below this is a "Cooler List" section with a "1 of 1" indicator. It contains one item, "Cooler #1", which is marked as "Complete" with a green checkmark. At the bottom, there is a back arrow and a prominent orange "Next" button.

33.

Begin System Acceptance

The screenshot shows the "BarTrack" app interface. It displays a progress list with three items: "Verify Equipment" (Completed), "Activate System" (Completed), and "System Acceptance" (Not Started). The "System Acceptance" item is highlighted with an orange circle and a right-pointing arrow. At the bottom of the screen is a grey button labeled "Finished".

34.

Review Installation Summary & Press Submit

The screenshot shows the "Install Summary" screen. It contains several sections: "Location Details" with fields for "VENUE NAME" (Sample Restaurant) and "ADDRESS" (8760 Stoneridge Dr, Manassas, VA 20111); "Registration Recipient" with fields for "POINT OF CONTACT" (John Smith, jsmith123@gmail.com, 5551234567); and "Hardware" with a field for "INSTALLED" (Glycol Chillers, 1). At the bottom is a prominent orange "Submit" button.

35.

Installation Completed!

The screenshot shows a confirmation screen. At the top, there is a large orange checkmark icon inside a circle, with the text "Installation Submitted" below it. Further down, there is a thumbs up icon, the heading "Install complete", and a thank you message: "Thank you so much for your help in getting the hardware configured at **Sample Restaurant** — we couldn't have done it without you!". Below the message, it says: "You can click **Back to Home** to return to the home screen or simply close your browser." At the bottom is a prominent orange "Back to home" button.
